## ➤ ABOUT US

For more than 35 years, we have been producing **GITARRE & BASS**, the leading trade magazine by musicians for musicians, and we always have our finger on the pulse. With us, everything revolves around the most exciting innovations from the musical instrument industry: guitars, basses, amps, effects, and accessories. Our independent team of authors, all of whom experienced thoroughbred musicians, takes a close look at them.

In exclusive interviews, professional musicians from rock, blues, metal, jazz, and pop tell us more about themselves, their technique, and the latest projects. In **GITARRE & BASS** you get to know your heroes better, discover newcomers and insider tips. Countless practical workshops by resourceful experts inspire to learn, make music, and tinker.

We are where the guitar community is - whether in print, online, or at our live event, the **GUITAR SUMMIT**, Europe's biggest guitar show.

The **custom shop** is a pure advertising section, prominently placed in the middle of the magazine, with four 1/4 page ads per page. There is no editorial content between the ads. For the reader it is a well-made window-shopping tour through the industry. Guitar makers, manufacturers, and distributors of niche products as well as dealers and also musicians gather there.

For the advertiser it is the most budget-priced form of advertising in print. The frequency ensures sustainability and a high recognition factor. The two options are 6x or 12x per 12-month term. Only 1/4 portrait ads are possible. The ad motif can be exchanged for each placement.

### The right surroundings are decisive for the success of your banners!

Display advertising remains an important component in the marketing mix. Its importance is equal to the importance of print and social media. A banner's relevance to its thematic environment is an essential factor. Studies around the globe prove that when banners are relevant to the article that the user is reading, then the reader's acceptance and interest are strongly and positively influenced, and the advertised product is more lastingly retained in the reader's memory and mindset.

At [gitarrebass.de](http://gitarrebass.de), you have the opportunity to present your products in thematically relevant, search-engine-optimized surroundings. You can even combine your banners with matching keywords so the banners appear only if the keyword is present in the URL or in the text.
